- 95% cotton spun with 5% polyester.
- Super soft face with plush inner layer

Cotton Feel Spun Poly

- 100% polyester spun fabric with a cotton feel
- Moisture wicking technology in the fibers & finish

Every effort has been made to accurately display the color of the fabric in the catalog. Differences in monitor calibration and print press technologies may cause colors to appear in shades or tones that are not actual. If precision in color is important, it is recommended that a sample or fabric swatch be ordered.

www.ramcoapparel.com

PRIVATE LABEL

- Ramco Provides private label manufacturing with minimum orders as low as 144 pieces.
- We will manufacture to your specifications including product design, fabric, color and quantity. Our state-of-the-art factories provides the flexibility to be able to manufacture knit fabrics in various colors, weights and constructions.

KNITTING CAPABILITIES

- Warp knitting and circular knitting.
- Open mesh or dazzle fabrics on the Karl Mayer warp knitting machines at any weight or construction that you may need.
- Single jersey, double knit, pique and fleece on the circular knitting machines all available in different cylinder diameters and cuts.
- Combed Egyptian cotton or 100% polyester. We can have it knitted to your specifications.

DYING CAPABILITIES

- State of the art lab with Data Color System.
- Data Color System utilized to create the right depth combined with Pantone Color cards for the shades.
- Dyes utilized in the USA, Germany, and Switzerland
- We use the correct auxiliaries to provide you with either color stability, softness, anti-pilling, anti-snap, anti-static, anti-microbial treatment and more....

WIDE FORMAT DYING SUBLIMATION

- Full color, vibrant textile printing
- Up to 120" wide

LASER CUTTON: State of the Art Laser Cutting Technology; Wood or Metal

UV PRINTING: Full Color Vibrant Prints on Metal, Wood, or Acrylic. Great for Photo Prints, or Signage.

PANTONE COLOR MATCHING

RAMCO utilizes a Data Color system with a spectrophotometer, featuring precise color matching and color quality control for dyes. We produce the best results for color matching a wide variety of materials.

- Made in the USA • Stays soft after Washing • Ultra Soft and Plush
- Edge to Edge Printing • Please allow 3-5 Days for Production • Full Color Processing

EMBROIDERY, SCREEN PRINTING, SUBLIMATION

WE CAN DESIGN, PRODUCE, AND DECORATE!

We know that every customer is different and has their own unique style and needs. **RAMCO** is able to service and satisfy each customer with quality custom manufacturing and decorating solutions from design to delivery.

EMBROIDERY

The most popular of apparel decoration, embroidery creates a professional, distinctive and sophisticated form of branding. Our custom embroidered decoration options are designed to produce quality and results to promote your brand, event, or organization.

SCREEN PRINTING

For countless decorating possibilities and a variety of treatments, screen printing brings apparel to life that is creative and distinct. For bright and vibrant graphics, screen printing is a fitting choice and is extremely cost effective when ordering in larger quantities.

SUBLIMATION

Dye sublimation technology is the process where graphics and logos are heat-infused directly into the fabric fibers. This allows for greater range of design and color possibilities and results in a light-weight, breathable garment made for lasting performance that will never fade or wash out.

HEAT APPLIED NUMBERS

Letters and numbers are available in a variety of popular styles, sizes, materials, and colors. Heat pressed for instant personalization. A perfect alternative to screen printing. Add a name and number to any sports jersey for uniform customization.

LASER ETCHING

Using a laser, we can etch or burn an image into polyester and synthetic materials. The laser burns the top layer of the fabric, resulting in a darker, tonal mark on the garment. The tone of the mark varies according to fabric color. Medium-colored fabrics achieve a more distinguishable design than on darker or lighter fabrics.

LABELING

We specialize in adding the finishing touch to your apparel products with custom labels including woven labels, printed, heat seal, and hang tags.

- Made in the USA • Stays soft after Washing • Ultra Soft and Plush
- Edge to Edge Printing • Please allow 3-5 Days for Production • Full Color Processing
